A Big Planer

A Maine paper says that in one of the Bath ship yards is a planer, said to be the largest in the world. It is capable of working a piece of timber 66 feet long, five feet wide and two and one-half feet deep. The keel comes out of the machine ready for laying on the blocks, and perfectly smooth and true on all sides. A beveling saw is another capacious machine, which turns out timber sawed at any desired angle from the horizontal, and by it curved timbers and ship knees can be worked true to the live. The steam engine which runs these machines runs also a bolt-cutting machine which will nip off round iron of any diameter up to two inches; also a large and small circular saw, a machine for making tree nails, and in the finishing shop, a band circular saw, a planer, molding machine, and a plug and wedge machine. The waste steam is used in bending timber.

A bar of iron worth five dollars worked into horse-shoes, is worth ten dollars and fifty cents: made into needles, it is worth three hundred and fifty-five dollars; made into pen-knife blades, it is worth three thousand two hundred and eighty-five dollars; made into balance springs of watches, it is worth two hundred and fifty thousand dollars.

A bull in the old tariff is that " carefully required that animals "imported for breeding purposes" should be "live animals." The new tariff strikes out "live," and leaves that to be understood.

A circumstance with a very happy outcome was lately referred to by the Brooklyn Eagle. It was told by Mr. W. A. Davenport, con. nected with the house of Messrs. Butler, Pitken & Co., 476 Broadway, New York, and concerned the marvelous cure of Mr. Ezra D. Clarkson, near Newark, N. J., of a terrible case of rheumatism, which other remedies had failed even to alleviate. He was on his way to a hospital when Mr. Davenport met him and induced him to try St. Jacobs Oil, with the result named. Cleveland (O.) Practical Farmer

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the enly sure and quick way to drive it out is to purify and enrich the

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thor oughly and quickly assimilate with the blood, purifying and strengthen-ing it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is posi-tively not injurious.
